

## Self Declaration of Environmental Commitment for Teleleads Ltd.

Teleleads Ltd is a rapid growth business to business telemarketing company based in Petersfield, Hampshire.

The company has identified and complies with all environmental legislation relevant to its business activities, and currently reduces its impact on the environment by:

- Having an established recycling policy which includes Paper, Plastic, Toners, Electrical Equipment and Cans.
- Reducing energy consumption through using energy efficient lightbulbs, increasing insulation and purchasing energy from a renewable source.
- Managing resources and using ecofriendly products, where possible.
- Supporting charities through donations and undertaking voluntary work.

Although Teleleads Ltd is already demonstrating a significant reduction in their environmental impacts, over the next 12 months we are also committed to:

- Developing a purchasing policy.
- Implementing a purchasing policy with chosen suppliers.
- Carrying out an audit of suppliers to check their environmental credentials.
- Calculating our carbon footprint.
- Investigating carbon offsetting and select the offsetting regime that is most applicable.
- Continually improving our recycling strategy and monitoring the volume of waste recycled.
- Increasing the volume of recycled products purchased.
- Monitoring the amount of water used.
